# ROWAN TECHNICAL INSTITUTE

*Salisbury, North Carolina*

*Editor — Edmund M. Kelly*

*Assistant Editor — Joseph A. Casey*

## *Foreword*

*At the ending of the year,  
we linger just a moment to say  
good-by to all we know and blot  
a tear that may flow. Now it's  
here; now it's gone, there you  
are all alone.*

*We, the annual staff, have  
captured some of the happiness  
and tears of this year. The  
warmness and joy shown at Rowan  
Tech is given to you, the  
students, in the pages of the  
1971 SPECTRUM.*

# ROWAN TECHNICAL INSTITUTE

MAIL ADDRESS:

POST OFFICE Box 1555

INTERSTATE 85 AT KLUMAC ROAD

SALISBURY, NORTH CAROLINA

28144

1970-71

From the President:

Another year in your life - another milestone has been passed. A year, I trust that has been marked by successes in your endeavors. Rowan Tech, in its short history, has had successes too - her students and graduates - the people who pass through the doors have received something - and inevitably left something. Both the student body and the institution are richer for your having been here.

The accreditation of the Institution by the Southern Association of Colleges and Schools this year marks a singular accomplishment which is the result of the faculty, students, Board of Trustees, and administration working together to develop an institution with instructional programs meeting high standards. It is an endeavor to have better educational programs available to you.

One of the exciting aspects of being a part of a new institution is that you are making traditions. The annual staff this year has again kept pace with the ever expanding traditions of excellence in the production of a written record which will assist you to recall many fond memories.

You are a Rowan Tech product - wear the label proudly.

Sincerely,

*C. Merrill Hamilton*

C. Merrill Hamilton  
President

# *Rowan Tech Biography*

The history of Rowan Technical Institute is marked by steady growth to serve the people of the mid-Piedmont area of North Carolina. In 1960, Salisbury -- Rowan community leaders, working through the Chamber of Commerce, conducted an area manpower requirements survey. Results of this survey provided the basis for requesting the State Board of Education to establish an industrial education center in Rowan County.

Limited operations were begun in 1962, with the first group of students entering an industrial machine operation training program in June of that year. Following completion of the first building designed especially for vocational-technical education, the Institute opened its doors to the first group of full time students on September 3, 1963. Rowan Tech graduated 13 students in July 1964 and in 1969 the number had increased to 117. With the number of students growing, the number of buildings have also grown. Last year the third building was added to our campus. Located in the new building is the new and expanded library, general office, laboratories for Fire and Safety Engineering Technology, Electrical Technology, a Secretarial Science lab, Business Machines lab, and Practical Nursing class rooms and laboratories.

During the 1969-70 school year, the various educational programs of Rowan Tech had served over 8,000 citizens of Rowan and surrounding counties. The Institute now offers twenty organized educational curriculums in vocational trades, business careers, health careers, engineering technology, and guided studies preparatory for entrance into the two-year programs.

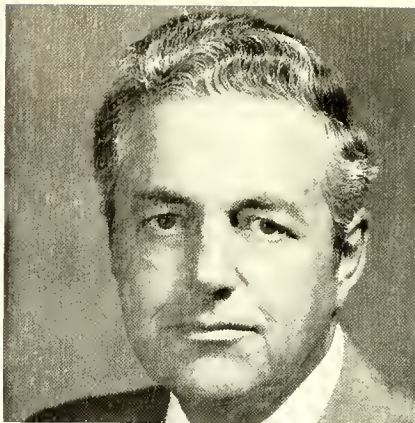

Rowan Tech is the only institution in North Carolina accredited by both the Southern Association of Colleges and Schools and the State Board of Education. Rowan Tech is one of the three institutions fully accredited by the North Carolina State Board of Education at this time. The State Board action was based on recommendation of a special screening committee's review of Rowan Tech's self-study and the status report filed with the Southern Association of Colleges and Schools.

To quote Mr. C. Merrill Hamilton, "Rowan Tech is not just a school, it's people." With the help and encouragement of the faculty and student body, Rowan Tech will always continue to grow and prosper.

## *Annual Staff*

ASSISTANT SECRETARY  
Suzanne Pridgen

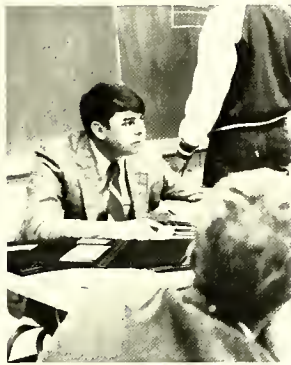

SECRETARY-TYPIST  
Alice Fleming

A group of qualified people got together and combined their individual talents of photographing, writing, and typing. This group makes up the annual staff. The annual staff worked long and hard hours to meet deadline dates. Many nights and Saturday mornings were spent developing pictures and placing final prints on the pages of our book.

# *We Dedicate . . .*

Seeking for knowledge, character, and humility, we dedicate the 1971 Spectrum to the most faithful and energetic member of the Rowan Technical faculty.

There flows from the point of his pencil the willingness to give knowledge and encouragement. From every stroke of his skillful hand, he shows consideration, helpfulness, and adds a friendly personal attitude wherever it may be needed. Through the warm smile of instruction, we have found his leadership and training necessary for guidance. With coffee cup in hand he is ready to attack any problem given to him. He takes pleasure in knowing he has given someone the incentive to work to the best of their ability.

This, the 1971 Spectrum, is proudly dedicated to our instructor, advisor, and friend, MR. KENNETH E. MULLIS.

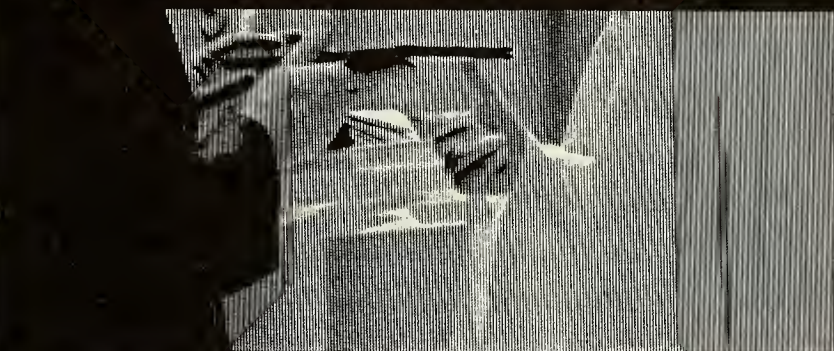

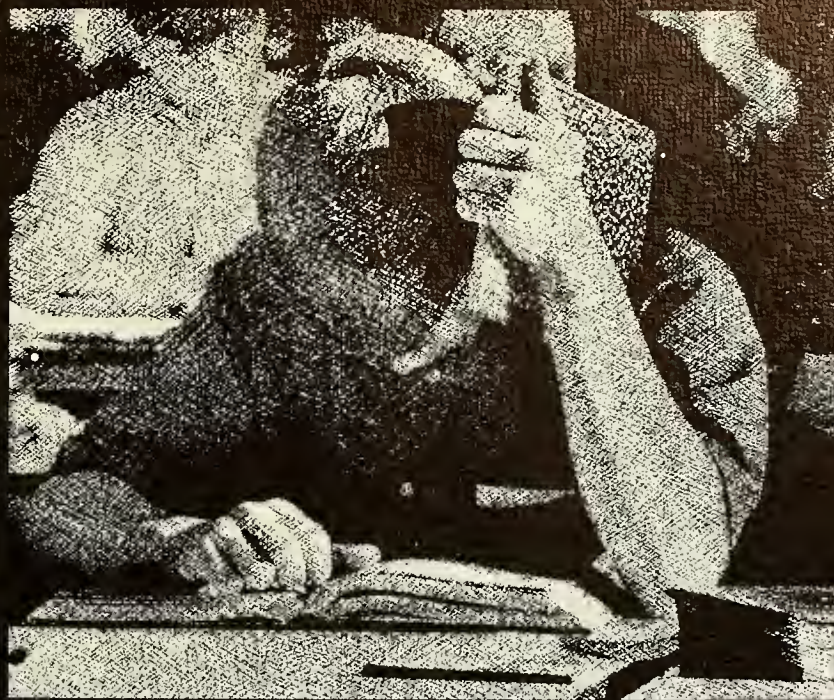

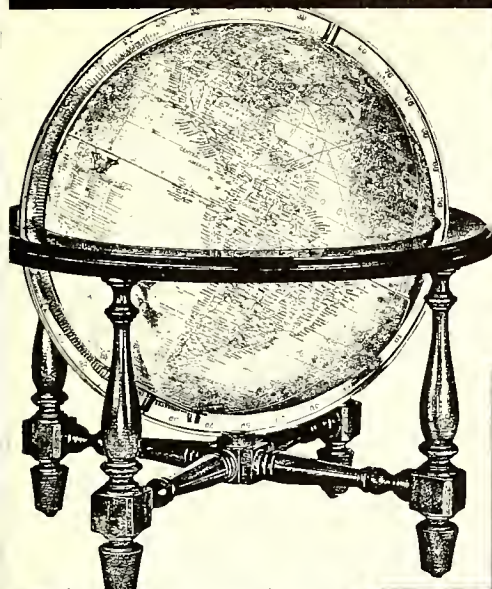

*Kenneth E. Mullis*

*Cleatus A. Miller  
Receives  
Navy Cross*

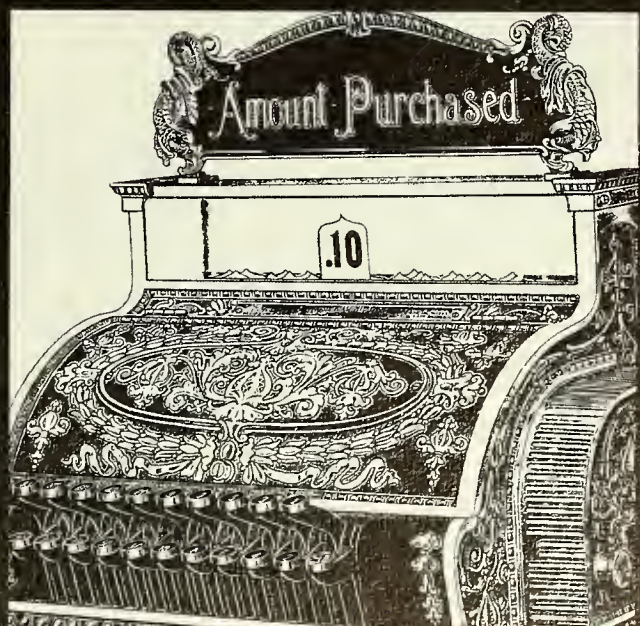

Congressman Earl B. Ruth presented the Navy Cross to Marine Private First Class Cleatus A. Miller, Jr. on January 17, 1971. The Navy Cross, which is the second highest award receivable, was given for extraordinary heroism in combat. On October 25, 1969 PFC Miller, whose right leg was immobile, dragged a machine gun to an advantageous firing position and commenced to deliver rapid bursts against hostile emplacements. His heroic and resolute actions inspired all who observed him and provided the time vitally necessary for the first squad to regroup and assault through the North Vietnamese Army emplacements.

## Football

Intramural football was started by the students. The playing of football eases the tension of school and invites school spirit. Each curriculum formed a team and play offs began. At the end of play offs Fire Tech came out on top with Drafting and Design very close behind.

### Intramural Standings

Team	Points
Fire & Safety	18
Drafting & Design	7
Machinist Trade	5
Data Processing	3
Manufacturing	1
Electronics	0
Faculty	-1

Fire and Safety  
first place

Drafting and Design  
second place

## *Intramural Bowling*

"Let's see, all ya have to do is think that those pins are the faculty and its grade time."

"Sure wish Mr. Gilbert was here."

Intramural Bowling is another sport that is offered at RTI to induce the spirit of teamwork and healthy competition. It was opened to all students, male and female, of all curriculums. The league had a mildly successful season and hopes for a larger turn-out in the coming year.

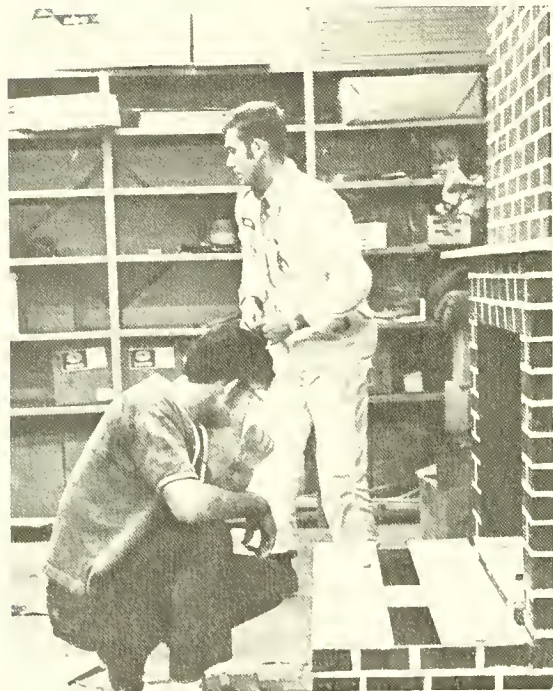

# SAINT JOHN

FIRST ROW: C. Hatley, L. Kennedy, P. Shoemaker, D. Webster SECOND ROW: H. Miller, K. Thies, C. Miller, D. Foster, G. Goodson -- adv.

The purpose of the float committee is to design and prepare a float for entry into local Christmas parades. The committee began work in early October of 1970. The first parade was the Kannapolis parade with the Salisbury, Albermarle and Mocksville parades to follow. The theme of this years float was "Bridge Over Troubled Waters." A lot of hard work was put out and the rewards were well worth it.

## *Thank You . . .*

*The annual staff has reserved this, the last page, to give thanks to the many people who are not mentioned by name. Special thanks goes to student personnel because we were forever popping in for something.*

*To the men of the photo-lab, we give a pat on the back and a bottle of fix.*

*Extra thanks is in line for the S.G.A., after all, they financed the annual.*

*We have tired to capture moods, hopes, and desires of the wonderful people of Rowan Tech. "Thank you," are the only expressible words to show the way we, the Annual Staff feels.*
